

ENHANCE YOUR OUTDOOR SPACE

**CARIBBEAN
BLINDS** UK LTD

LUXURY EXTERNAL SHADING SINCE 1987

MAKE THE MOST OF YOUR OUTDOOR SPACE

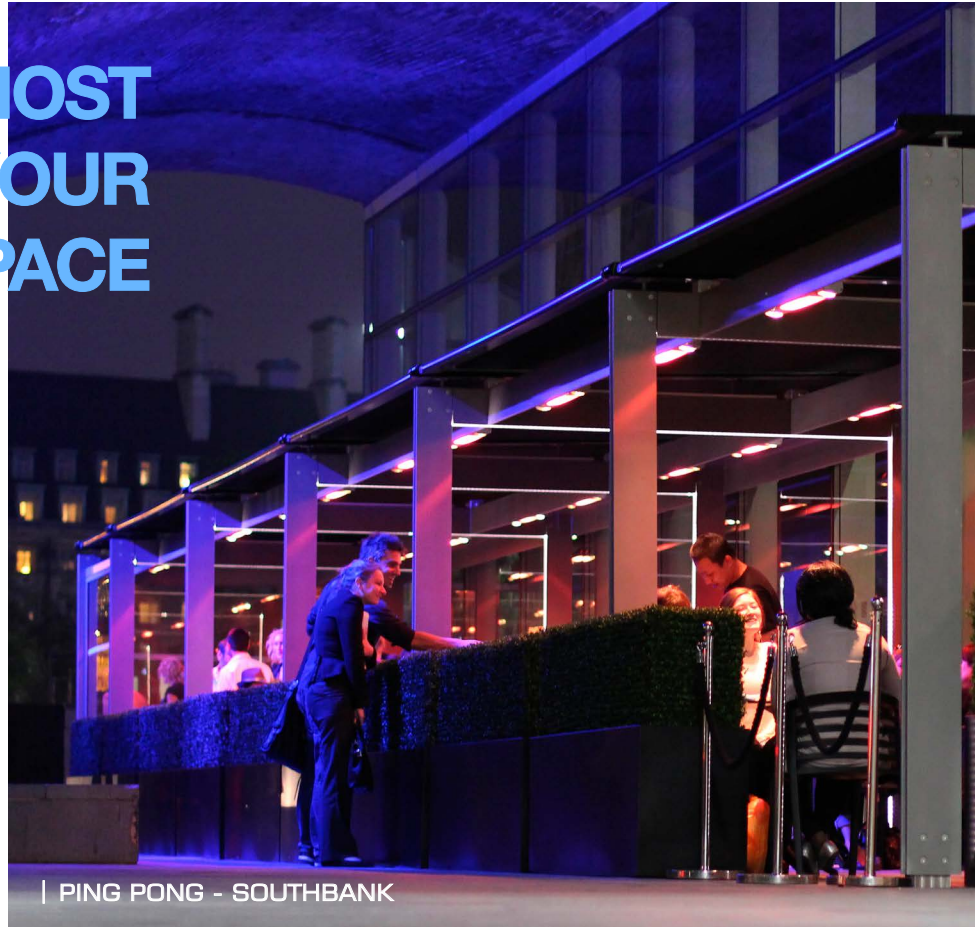

INCREASE COVERS

BOOST SALES

MAXIMISE PROFITS

At Caribbean Blinds we have been transforming the use, functionality and enjoyment from outdoor spaces across the country with our [innovative all weather terrace coverings](#) for over 30 years.

We understand the importance of having a fully functional terrace that can be used all year round, come rain or shine, day or night, during the summer or in winter and [we work with you to design a terrace covering that will help your business maximise use of your outdoor trading space](#), boosting your revenue and most importantly profits.

From stylish patio awnings that provide instant shade and shelter to award winning Outdoor Living Pods that offer all weather protection and external blinds that provide screening from the elements, we have the [perfect external shading system for your application](#), requirement and budget.

Take control of the weather and [realise the full potential of your outdoor space](#) with Caribbean Blinds.

PRESTIGE OUTDOOR LIVING POD™

| THE CONDUIT - MAYFAIR

LOUVERED ROOFS

The award winning Outdoor Living Pod™ from Caribbean Blinds is the most [flexible and adaptable terrace covering](#) on the market featuring an innovative opening and closing louvered roof, designed to enable year round use of your outdoor space come sun, wind, rain or even snow.

Water, wind and snow tight when closed, the [motorised aluminium louvers rotate fully at the touch of a button](#), stopping at the required position to provide as much shade or light on your terrace desired, along with ventilation from heat build up beneath. An invisible guttering hidden within the structure framework provides effective drainage of water from the roof when closed. Additionally, on our Prestige model (pictured), the roof slides completely open for the ultimate open air alfresco experience.

Optional windproof side screens prevent driving wind and rain along with offering shade from low level sunlight, whilst low glare infra-red heaters and dimmable LED lighting within the louvers or cross beams [create a pleasant environment on the terrace](#).

Finished in an endless array of stunning textured finishes, the Outdoor Living Pod™ brings a touch of class to any location and its [all aluminium and stainless steel construction](#) ensures it will withstand the knocks and bumps of any environment.

CUBA FOLDING ARM AWNING

| THE OAKSMERE - SUFFOLK

PATIO AWNINGS

Outstretching to [provide a roof over your terrace](#), a Caribbean Blinds retractable patio awning provides effective shade and shelter.

Blocking the sun's heat, our patio awnings keep the terrace cool on even the hottest of summer days whilst offering [shelter from those unexpected and often persistent rain showers](#). Damaging ultraviolet rays are blocked whilst harsh light is filtered to stop unwanted glare.

When equipped with optional ambient LED lighting and instant radiant heating you will [create a warm and cosy atmosphere on the terrace](#) that can be enjoyed all year round.

Boasting a superstrong aluminium construction with hi-tensile folding arms, our patio awnings are suitable for the most demanding of environments. There are an endless array of exclusive fade resistant CBA fabrics to choose from with unique [self clean effect coatings](#) and convenient motorised remote control operation as standard, with built in wind protection for added safety.

ANTIGUAN EXTERNAL ROLLER BLIND

EXTERNAL BLINDS

External blinds from Caribbean Blinds cover the exposed areas of existing terrace coverings, including pergolas and verandas, to [provide essential protection from the elements](#).

Thanks to built in windproof locking mechanisms that physically seal the fabric in the side guides along with concealed heavy duty tensioning systems, our external blinds will [prevent driving wind and rain](#) whilst also offering shade from the sun's heat and bright light. When equipped with optional clearview windows (pictured) on our roller blinds, two way vision is maintained.

Motorised operation via remote control or wall switch provides [convenient touch of a button functioning](#) whilst an array of easy clean fabrics to select from ensures our blinds keep a clean visual appearance all year round. Full cassette headboxes provide a neat hideway when the blind is not in use and the corrosion resistant, extruded aluminium frameworks, powdercoated to any colour are maintenance free.
